MICHAEL LINARES

FRONT-END DEVELOPER

I am from Dominican Republic based in Poland, my journey as a Web-Developer started when I noticed that I can bring my ideas to life and develop my knowledge in the same process. Music, coding, naturally curious and perpetually expanding my knowledge.

SUMMARY

Frontend Developer working with companies and collaborations with talented people to create digital products. My passion for technology and design drives me continuously to bring fresh and effective approaches to every project.

Experience

○ **2022 - 2024**

EFS-INNNOVATION

Frontend Developer specialized in Vue.js/Nuxt, Node.js, and Git, delivering high-quality web solutions. My primary responsibilities included troubleshooting, resolving bugs, implementing new features, and maintaining comprehensive documentation.

○ **2018 - 2021**

PUNTA CANA YACHT RENTALS - PCYR

Development of websites and web applications per clients' requirements.
TECHNOLOGIES: Html5 • Css • Sass • BootsTrap • JavaScript (jQuery) • Git • WordPress and Photoshop.

Education

○ **2017 - Present**

COURSES AND TRAINING

Learning never stops. I've completed countless courses and attended several conferences and workshops focusing on Responsive Web Design, and Single Page Applications.
